

## A Monster Homework

Imagine two monsters. One is a nice monster.  
One is a horrible monster.

Write a list of things that a monster's body would have. E.g. head, eyes, nose, mouth, ears and legs.

Think of your horrible monster. Write a word to describe what its head is like, e.g. gigantic head. Write a describing word to go with each of the other things in your list. Try not to use the same describing word twice.

Do the same for your nice monster. If you like you can draw and label a picture of both monsters (write your describing words around the picture.)

Bring your work on monsters into school.
