I know some facts about the moon landing.

# The Moon Landing

On 20<sup>th</sup> July 1\_\_\_\_\_ Neil A \_\_\_\_\_ became the first person to walk on the m\_\_\_\_\_.

He was born in the U\_\_\_\_\_ and was called an A\_\_\_\_\_.

A Saturn V rocket blasted him into space in a space ship called A\_\_\_\_\_ 11.

He was joined by Buzz Aldrin and Michael Collins.

As he set foot on the moon he said some very f\_\_\_\_\_ words. They were "That's one small step for m\_\_\_\_\_, one giant leap for m\_\_\_\_\_".

The United States of America had won the S\_\_\_\_\_ R\_\_\_\_\_.

On the moon there is no gravity. Draw and write something you would do on the moon.

Pretend to be The President of the USA. You have phoned Neil Armstrong on the moon. What would you say to him?
