

How long does it take?

What did you do?	How long did it take? (Seconds or minutes)	Estimate how long it would take.
Read a page from a book.		To read three pages it would take _____
Wrote my name		To write my name four times it would take _____
Walked around the playground.		To walk around the playground twice it would take me _____
Put my jumper on and then took it off again.		To do this three times it would take me _____
Count up to 60 in my head.		To do this twice it would take me _____
Say my 5 times table up to $10 \times 5 = 50$.		To say the 5 times table 5 times it would take _____
Count in 10s up to 1000		To do this twice it would take _____ _____

Do not forget to write down the time that you have measured in.

Have you used just seconds or both minutes and seconds?

- Now work out how many hours and minutes there are written on the board.
