

Sorting quadrilaterals using a Carroll Diagram

Stick this Carroll diagram into your book.

| | At least one line of symmetry | No lines of symmetry |
|--------------------------|-------------------------------|----------------------|
| At least one right angle | | |
| No right angles | | |

Cut out each of these shapes. Label each shape with its correct name, and place it in the correct place on your Carroll Diagram.

Finished? Think of another way you could sort the quadrilaterals using a Carroll diagram.
